American Views on World Leaders

Survey Methodology

The survey was carried out March 16-28, 2022 online from a nationally representative sample of Nielsen Scarborough's probability-based panel, originally recruited by mail and telephone using a random sample of adults provided by Survey Sampling International. The poll was conducted among a national poll of 1,320 respondents, with a margin of error of +/- 2.7%. Overall, the sample was adjusted to reflect population estimates (Scarborough USA+/Gallup) for Americans. The survey variables balanced through weighting were: age, gender, race/ethnicity, household income, level of education, census regional division, and political party affiliation.

Valuable assistance was provided by Jessica Lichtenfeld and Defne Coklar from Nielsen Scarborough. Kirsten Langlois, Molly Schreier, and Frankie Andrews were particularly helpful.

Note: Percentages may not always add to one-hundred due to rounding.
